OUR SEEDS

are

DEPENDABLE

PEDER BACK.

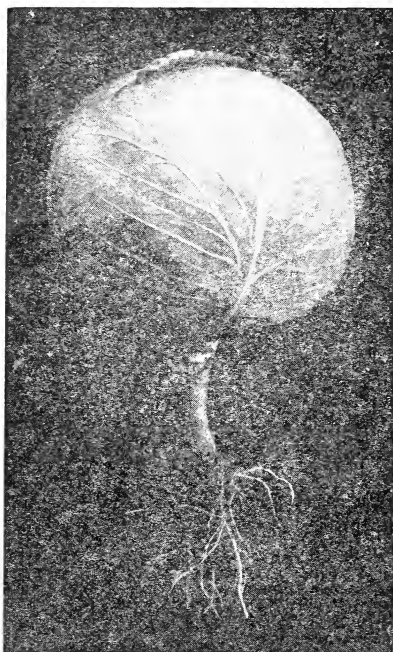

Dear Customers and Friends:

I wish to thank the many customers who, by their patronage, have made it possible again this year to offer you our price list. I appreciate your business and promise you the best seeds obtainable.

I realize the great importance of good, reliable seeds, having been a gardener for twenty years, and I wish to sell you such seeds as I would like to grow myself. This year I am changing our former name Standard Seed Co. to my own name Peder Back Seed Co.

Yours sincerely,

PEDER BACK.

**Back's Copenhagen Market**

# Cabbage Seed

Cabbage Seed is our leading Specialty, and we recommend **Back's Own Strain** to any one who wants the best.

**Back's Strain of Cabbage Seeds** are grown in the Northern Part of Denmark, from the very best Selected Stock, by reliable Seed Growers, whom we know personally, and we firmly believe **Back's Strain of Cabbage Seeds** to be the most reliable you can buy.

**Back's Strains of Cabbage Seeds** are true to name. **Back's Strains of Cabbage Seeds** Produce the Biggest Crops. **Back's Strain's** Produce Large Uniform Heads. **Back's Strain** can be depended upon. All Seed of **Back's Strains** are Disinfected and Treated by us.

The germs of some of the worst cabbage diseases such as Black-Rot and Black-Leg have been found to overwinter on Cabbage Seed, thereby causing loss to entire Fields. For this reason we disinfect all our cabbage Seeds of **Back's Own Strain**, thereby making it superior to all other Cabbage Seed.

## Back's Copenhagen Market

### Best Early Cabbage

The heads are exceptionally large, very solid and of most excellent quality. The plants are vigorous but compact with short stem. **Back's Strain Produce** very large round heads and very early.

Oz. \$.50  $\frac{1}{4}$  Lb. \$1.60 Lb. \$5

## Back's Glory The Second Best Early Cabbage

From two to four weeks later than Copenhagen Market and will keep late without busting. The plants are very strong growing and produce large round heads.

Oz. \$.30  $\frac{1}{4}$  Lb. \$1.00 Lb. \$3.50

## Back's Hollander or Danish Ballhead Short Stem. The Best late Cabbage.

Very hard and solid, produce large heads of exceptionally good quality. This variety should yield over 25 tons to the acre under favorable conditions. It is a good late keeper and one of the Best for Storage. The color of the outer leaves is Bluish Green and **Back's Strain of Hollander** is thereby easily recognized. We recommend this to be the most reliable late cabbage.

Oz. \$.35  $\frac{1}{4}$  Lb. \$1.25 Lb. \$4.00

## Ferry's Strain Hollander

This Cabbage is grown by many of the large Cabbage Growers, and we consider it one of the Best.

It is a late variety with Medium sized Heads and as solid as a Rock.

It is a good late Keeper.

Our Seed is grown by our Grower in Denmark from seeds we purchased from D M. Ferry and Co.

Oz. 75  $\frac{1}{4}$  Lb. 2.00 Lb. 7.00

**Back's Hollander**

## BACK'S AMERICAN SHIPPER.

After many years of careful selecting and breeding we are now ready to offer this Ideal Shipping and Storage Cabbage.

It is a perfect Hollander type, grows hard, perfect and heavy heads and will yield more tonnage to the acre than any other cabbage I know of.

The color is bluish green and the heads are very uniform and matures late.

Back's American Shipper is **Yellows Resistant**, and all the seed is treated before sent out.

This is the Best Cabbage for the large grower who appreciates a real good Shipping and Storage Cabbage. It will stand up.

We have only a very limited supply this year to offer, and will not sell more than one pound to a customer.

Oz., \$1.25;  $\frac{1}{4}$  Lb., \$4.00; Lb., \$15.00.

## BACK'S WISCONSIN HOLLANDER.

This cabbage is well known for its Yellows Resistant qualities, and will grow where other strains of cabbage fails.

Racine is the Home of this cabbage, and a good many Growers are growing seed to sell there is mixed, and not fit to offer to the careful grower.

The Strain we have is the **Best** of them all, due to the fact that we live right amongst these Cabbage Growers and are in position to select our seed from the most careful and reliable grower.

This Seed is treated before sent out.

Oz., \$0.85;  $\frac{1}{4}$  Lb., \$2.75; Lb., \$10.00.

## BACK'S GOLDEN ACRE.

This is really an improved Copenhagen Market Cabbage. About 2 to 3 weeks earlier and the heads a good deal smaller but hard as a rock. This is a real money maker for the grower who brings it to the market early. This seed is treated before sent out.

Oz., \$1.25;  $\frac{1}{4}$  Lb., \$4.00; Lb., \$15.00.

## **WHAT PROMINENT CABBAGE GROWERS SAY ABOUT PEDER BACK'S SUPERIOR CABBAGE SEEDS**

Dear Sir:

In the Spring of this year I purchased one pound of Back's Copenhagen Market Cabbage Seed, one pound of Back's Hollander and one pound of your Special Ferry's Hollander grown for you in Denmark.

The germination of all three varieties was satisfactory, that of Back's Hollander being the best that I have observed in 15 years' cabbage growing.

We planted about five acres of Copenhagen Market; about one acre of Back's Hollander and five acres of Ferry's Hollander. The Copenhagen Market seed was sown on the 10th of May, the plants were set out about the 20th of June and the crop was marketed in the ten-day period beginning Aug. 25th. It was the earliest Cabbage that we have ever grown; it yielded about 14 tons per acre, but would have yielded much more heavily had it been given two weeks more to grow. Incidentally, it was the finest eating cabbage that ever came on our table.

Of the two late varieties Back's Hollander is a heavy yielding firm cabbage that in many respects is an ideal strain for the general late market.

The Ferry's Hollander Danish grown is the kind that delights the heart of the grower who wants a late cabbage for storing. The heads are as sound as so many nuts and almost as uniform in size. For our black fertile soil this variety cannot be surpassed. All three varieties are true to type a quality which is lacking in much of the seed ordinarily offered for sale.

Very truly yours,

J. D. JONES JR.

My Dear Mr. Back:

Enclosed please find my order for next year's Cabbage Seed. I wish to thank you for the way you have taken care of my orders in the past years, and I can recommend your Cabbage Seed to my friends as being the best seed that I have had.

Yours very truly, L. C. CHRISTENSEN.

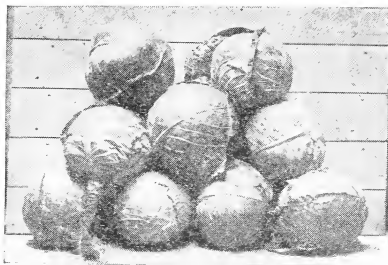

Dear Sir:

Your seed was very good. I think it must have grown 100 per cent, as I raised all my plants and had all kinds of plants to spare.

Sincerely yours, JOSEPH MEYER, Corliss, Wis.

**Back's Copenhagen Market. Own

Dear Sir:

In regard to your Cabbage Seed will say that I have grown Cabbage from your seed for a number of years alongside of Cabbage from other seed, and I have found your seed to be very much above the average, especially as to uniformity and good KEEPING qualities in storage.

Very truly yours, HARVEY A. NELSON, Union Grove.

Dear Sir:

I am very glad to have a chance to recommend the Peder Back Seed Co., as I have been a user of their seed for several years and have always been very much pleased with them.

Sincerely Yours,

FRED C. HANSEN, Union Grove, Wis.

Dear Sir:

In regard to your early and late Cabbage Seed, we wish to say that we and many of our neighbors have been using it for several years and found it satisfactory as to quality and price.

Yours truly, ROBT. M. RASMUSSEN, Kenosha, R. F. D. 2.

Dear Mr. Back:

I bought 5 pounds of your Cabbage Seed last year and was so well pleased with my Cabbage that I am coming in to see you and get all my seed from you again.

I believe I had the best Cabbage in Kenosha County, at least I have not seen any better and the Cabbage Buyers were after me early and late to get a hold of it.

Yours very truly, P. G. SCHAEFFER,

Somers, Wis., R. F. D. 1.

Dear Sir:

I thought I would write you a few lines and let you know that I want 5 pounds of your Ferry's Hollander Danish Grown Cabbage Seed at \$7.00 a pound.

We have used your Cabbage Seed for the past two years and we think it is the best we ever used. It grows so even and the heads are as hard as rocks, and we think they are the best for storing.

Please let me know if this letter reaches you and the money order.

Yours truly,

JOHN HEIMES, R 3 Kenosha, Wis.

Dear Sir:

I am writing you about your Cabbage Seed. I like it very much, and I have had good Cabbage. I would like 1½ lbs. Ferry's Hollander Danish Grown Cabbage Seed, and you will find payment enclosed for same.

Yours sincerely,

O. NA GREEN, R 1, Shiocton, Wis.

Dear Mr. Back:

The Cabbage Seed which we purchased from you has proven all that you claimed for it. The growers who purchased your seed from us are very much pleased with it. Those who sowed Back's Cabbage Seed are getting the tonnage, and the heads are as solid as a rock.

Very respectfully yours,

VOSBURGH HARDWARE CO., Genoa Jct., Wis.

## GLADIOLUS

The Gladiolus is one of the most decorative plants in the garden and as a cut flower lends itself readily to any arrangement. If the spikes are cut when the lowest flower is in bloom, the others will open in succession and remain fresh a week or ten days. No flower has gained more rapidly in public favor than Gladiolus; this could not well be otherwise, for in addition to the great intrinsic merit of the flower, it is hardy and blooms the first season from bulbs.

All our Gladioli Bulbs are large and not to be compared with small sizes offered cheaper elsewhere.

## “Racine Park Lawn Grass Seed”

This Lawn Grass Seed Mixture IS THE FRUIT OF MANY YEARS OF EXPERIENCE AND CLOSE STUDY OF SOIL CONDITIONS IN RACINE COUNTY AND IS UNDOUBTEDLY THE BEST THAT CAN BE HAD.

It is composed of the highest grade Lawn Seeds, having the highest purity, and germination there is to be had.

By its use a deep green velvety sward free from lumps can be produced in from four to six weeks.

The remarkable heavy demand for RACINE PARK LAWN GRASS SEED this past year proves the quality. 1 lb. will sow 175 square feet, 100 lbs. to the acre. Lb., 45 cts.; 10 lbs., \$4.25; 25 lbs., \$10.25; 100 lbs., \$40.00.

## “Oak Shade Lawn Seed”

On nearly all lawns there are unsightly bare spots under the shade of trees, which have baffled all efforts to get into grass, but with this mixture there need be no further difficulty. It is a combination of fine dwarf growing, evergreen varieties, which in their wild or natural state are to be found growing in the woods or other sheltered and shaded spots. Ground that has been densely shaded by trees is frequently “sour” and if the drainage is defective it is apt to be covered with moss and coarse grasses. In such cases an application of slaked lime, at the rate of one bushel to each thousand square feet, or forty bushel to the acre, is an excellent corrective and sweetener, but the moss should be first removed by the use of a sharp rake. 1 lb., 60 cts.; 10 lbs., \$5.75; 100 lbs., \$52.00.
